Hello this is a demonstration of using call to Erick capture to record what's on your screen.

What's viewable through your webcam and then uploading your video to VCC media space and submitting it as soon as I meant in Moodle I've already installed.

We have a video you can watch if you'd like help with that to start open culture except.

Culture capture control bar gives different options.

I can select screen if there's more than one monitor I can choose which one I'd like to record I can select area if I don't want to record the entire screen.
Captions: Edit then click Captions Text
Captions Text → Export As → SubRip (.srt)
Save the text file. Click OK.
You now have a text file for closed captions

- Upload it with the video file
  - YouTube, Kaltura
- Viewer can turn captions on & off
